

The 1759 Vought House is sponsoring a lecture about
Washington's Second in Command, Major General Charles Lee
on Saturday April 23rd, at 11:00 am
at the Clinton Township Middle School

Charles Lee: Patriot, Scapegoat or Traitor? by Dominick Mazzagetti

Dominick Mazzagetti presents an engaging account of the life of Charles Lee, the forgotten man of the American Revolution. History has not been kind to Lee – for good reason. In this compelling biography, Mazzagetti compares Lee's life and attributes to those of George Washington and offers significant observations omitted from previous Lee biographies, including extensive correspondence with British officers in 1777 that reflects Lee's abandonment of the Patriots' cause.

Lee, a British officer, a veteran of the French and Indian War, and a critic of King George III, arrived in New York City in 1773 with an ego that knew no bounds and tolerated no rivals. A highly visible and newsworthy personality, he quickly took up the American cause and encouraged rebellion.

As a result of this advocacy and his military skills, Lee was granted a commission as a major general in the Continental Army and soon became second-in-command to George Washington. He helped organize the defense of Boston, designed defenses for New York City, and commanded the force that repelled the British attack on Charleston.

Upon his return to New York in 1776, Lee was considered by some leaders of the Revolution to be an alternative to George Washington, who was in full retreat from British forces. Lee's capture by the British in December 1776 put an end to that possibility. Lee's subsequent release in a prisoner exchange in 1778 and return to an American command led to a dramatic confrontation with Washington on the battlefield at Monmouth, New Jersey, in June 1778. Washington chastised Lee publicly for ordering an unnecessary retreat. Lee suffered the ignominy of a court-martial conviction for this blunder and spent the remaining years to his

death in 1782 attacking Washington. Although few doubted Lee's loyalty at the time, his actions at Monmouth fueled speculation that he switched sides during his imprisonment.

A discovery years after his death completed Lee's tale. In 1862, a researcher discovered "Mr. Lee's Plan," a detailed strategy for the defeat of the American rebels delivered to British General William Howe while Lee was held in captivity. This discovery sealed Lee's historical record and ended all further discussion of his contributions to the American Revolution. Today, few people even realize that Fort Lee, on the New Jersey side of the George Washington Bridge, was named in his honor.

Dominick Mazzagetti's book *Charles Lee, Self Before Country* was published by Rivergate Regionals, Rutgers University Press, in 2013. Join the Vought House in learning more at this entertaining and informative presentation. To find out more about the Vought House, visit www.1759VoughtHouse.org
